MySQL query String contains

I have been trying to figure out how I can make a query with MySQL that checks if the value (string \$haystack) in a certain column contains certain data (string \$needle), like this:

```
SELECT *  
FROM `table`  
WHERE `column`.contains(`$needle`)
```

How do I check if a list is empty?

How do I check to see if a is empty? For example, if passed the following:

```
a = []
```

Posted by : Kirti Saroj - 2021-09-22 23:49:55 33

3 Answers

Jobin Joseph at 2021-09-23 00:20:56 76

```
if not a:  
    print("List is empty")
```

Shraddha Tripathi at 2021-09-23 00:21:31 139

I prefer it explicitly:

```
if len(l) == 0:  
    print('the list is empty')
```

Afzal Khan at 2021-09-23 00:22:52 499

The pythonic way to do it is from the [PEP 8 style guide](#) (where Yes means "recommended" and No means "not recommended"):

For sequences, (strings, lists, tuples), use the fact that empty sequences are false.

Yes: if not seq:

 if seq:

No: if len(seq):

 if not len(seq):

Bitcoin Basics: A Beginner's Guide to Cryptocurrency

Afzal Khan | 2021-09-22 23:19:25 | 6

The world is abuzz about bitcoin these days and that has many people wondering what bitcoin actually is, why it's so hot right now, and what it all means for the future of ecommerce. The following article will hopefully help demystify this ultra-hot cryptocurrency.

What is bitcoin?

Bitcoin is a form of digital currency and a worldwide payment system. Unlike traditional currency, such as minted coins or printed bills, bitcoin is created and held electronically. And unlike traditional currency that is controlled by a central bank, no single entity controls bitcoin and, by extension, no single authority can manipulate the value or destabilize the network. Bitcoin is exchanged electronically by users via cryptographic addresses. Third-party sites, called exchanges, help facilitate these transactions.

Where does bitcoin come from?

The process by which bitcoins are generated is called mining. Using powerful computer processors, individual miners or groups working together essentially solve a complex mathematical problem, which not only uncovers new bitcoin, but also serves to maintain the security and integrity of all bitcoin transactions that take place on the network.

Specifically, transaction details resulting from the transfer of bitcoin around the world are collected into a list called a block. It's up to miners to confirm those transactions and write them into a general ledger, which is essentially a long list of blocks, known as the blockchain. Anyone can access the blockchain to explore any transaction made between any bitcoin addresses, at any point on the network.

While it may be unclear precisely what the future has in store for bitcoin, it has, without question, been the driving force behind elevating cryptocurrency to the collective conscience. Whether you prefer to watch the bitcoin action from the sidelines or jump right into the fray, it will be fascinating to see how this journey unfolds.

How can I display a message dialog box in java

I want to display a message dialog box in java. At this moment I can only display a message in a console by using System.out.println() method Example

```
B I H D U S C P ?  
public class demo{  
    public static void main(String[] x){  
        // i want to display the below message in a dialog box  
        System.out.print("java is fun").  
    }  
}

Quite simple actually:
SELECT * FROM `table` WHERE `column` LIKE "%{\$needle}%"
The % is a wildcard for any characters set (none, one or many). Do note that this can get slow on very large datasets so if your database grows you'll need to use fulltext indices.|

At the bottom right of the editor is a dark green rectangular button labeled "Post".

User Dashboard Page

The screenshot shows a dark-themed user dashboard. At the top right, a user profile for "Priya Vikas Sharma" is displayed with a dropdown menu containing "Profile", "Dashboard", "Testimonial", and "Logout". The main content area features a title "Articles By Users" and a search bar.

User Posted Questions

The screenshot shows a list of user questions. The top navigation bar includes links for "Home", "Forum", "Articles", "About", "Contact", and the user's name "Priya Vikas Sharma". Below the navigation, there are tabs for "Questions", "Answers", and "Articles", with "Answers" being the active tab. A section titled "Your Questions" lists two entries:

ID	Title	Date	View	Edit
11	how can I display a message dialog box in java ?	2021-09-25 06:30:00	View	Edit
12	How can I display a message dialog box in java	2021-09-25 06:32:06	View	Edit

The screenshot shows the footer section of the website. It includes links for "Articles", "Forum", "About", and "Contact Us". In the center, it says "Copyright © IDiscuss 2021". On the right side, there are icons for Facebook, Twitter, Instagram, and Email.

Edit Particular Question

➤ Before(View)

The screenshot shows a question titled "How can I display a message dialog box in java". The question text is: "I want to display a message dialog box in java. At this moment I can only display a message in a console by using System.out.println() method Example :". Below the question is a code block:

```
public class demo{  
    public static void main(String[] x){  
        // i want to display the below message in a dialog box  
        System.out.print("java is fun");  
    }  
}
```

At the bottom, it says "Posted by : Priya Vikas Sharma - 2021-09-25 06:32:06" with 5 views.

Edit Page

The screenshot shows the "Edit Query" page for the same question. The title is "How can I display a message dialog box in java". The description is: "I want to display a message dialog box in java. At this moment I can only display a message in a console by using System.out.println() method Example :". The code block is identical to the one above.

Below the form are two buttons: "Save" and "Dashboard".

At the bottom of the page, there is a footer with links: "Articles", "Forum", "About", and "Contact Us". On the right side of the footer, there are social media icons for Facebook, Twitter, Instagram, and Email.

➤ After
Removing the description part

The screenshot shows the IDiscuss platform's question editing interface. At the top, there is a navigation bar with links for Home, Forum, Articles, About, Contact, and a user profile for Priya Vikas Sharma. Below the navigation bar, the title "Edit Query" is displayed. The form has three sections: "Title" containing the text "How can I display a message dialog box in java", "Description" containing the placeholder "Enter your message", and "Code" containing Java code. The code is as follows:

```
public class demo{  
    public static void main(String[] x){  
        // i want to display the below message in a dialog box  
        System.out.print("java is fun");  
    }  
}
```

At the bottom of the form are two buttons: "Save" and "Dashboard".

The screenshot shows the dark-themed footer of the IDiscuss website. It includes links for Articles, Forum, About, and Contact Us. On the right side, there is a copyright notice "Copyright © IDiscuss 2021" and social media sharing icons for Facebook, Twitter, Instagram, and Email.

Question Edited

The screenshot shows a single question post on the IDiscuss platform. The question title is "How can I display a message dialog box in java". The question content is identical to the one in the previous screenshot. Below the question, there is a timestamp indicating it was posted by Priya Vikas Sharma on 2021-09-25 at 06:32:06, with 6 upvotes.

User Commented Answers

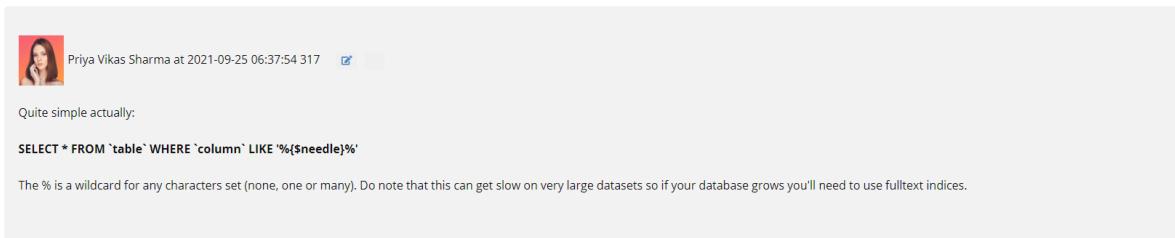

The screenshot shows a web application interface for 'iDiscuss'. At the top left is the logo 'iDISCUSS' with a stylized upward-pointing arrow. The top navigation bar includes links for Home, Forum, Articles, About, Contact, and a user profile for Priya Vikas Sharma. Below the navigation is a horizontal menu bar with three buttons: 'Questions' (blue), 'Answers' (white), and 'Articles' (blue). A section titled 'Your Answers' displays a table of comments. The table has columns for ID, Comment Description, Date, View, Edit, and Delete. One comment is listed:

Below the navigation bar is a green button labeled 'View Demo Article Template'. The main content area has a 'Heading' input field and a rich text editor toolbar. Below the toolbar is a large text area for the article content. A note says 'Picture (only jpg , jpeg extension allowed)' and there is a file upload input field with 'Choose File' and 'No file chosen' labels. A green 'Post' button is at the bottom.

The screenshot shows the footer section of the IDiscuss website. It includes links for Articles, Forum, About, and Contact Us. In the center, it says 'Copyright © IDiscuss 2021'. On the right side, there are social media icons for Facebook, Twitter, Instagram, and Email.

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Applications of digital technology in COVID-19 pandemic

response in ways that are difficult to achieve manually (figure). Countries such as South Korea have integrated digital technology into government-coordinated containment and mitigation processes—including surveillance, testing, contact tracing, and strict quarantine—which could be associated with the early flattening of their incidence curves. Although South Korea has incurred more COVID-19 deaths per 100 000 people in USA, with three times as many intensive care unit beds per 100 000 people and ranked number one in pandemic preparedness before the COVID-19 pandemic, has sustained ten times as many deaths per capita.

This Viewport provides a framework for the application of digital technologies in pandemic management and response, highlighting ways in which successful countries have adopted and integrated digital technologies for pandemic planning, surveillance, testing, contact tracing, quarantine, and health care (table). The panel provides a brief glossary explaining some of these concepts.

Screening for infection

China uses free, web-based and cloud-based tools to screen and direct individuals to appropriate resources. High-performance infrared thermal cameras set up in Taiwanese airports are used to capture thermal images of people in real time, rapidly detecting individuals with a fever. In Singapore, people have their temperature measured at the entries of workplaces, schools, and public transport. The data from the thermometers is tracked and used to identify emerging hot spots and clusters of infection where testing could be initiated

Applications of digital technology in COVID-19 pandemic

Priya Vikas Sharma | 2021-09-25 07:22:19 | 0

Introduction

COVID-19, an infectious disease caused by the novel severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), is a global pandemic. With high transmissibility, a case fatality rate greater than 1%, and no effective antiviral therapy or vaccine, the mainstay of pandemic management has been containment and mitigation. However, despite relying on established public health principles, countries across the world have had varying degrees of success in managing the burden of COVID-19. Digital health technology can facilitate pandemic strategy and response in ways that are difficult to achieve manually (figure). Countries such as South Korea have integrated digital technology into government-coordinated containment and mitigation processes—including surveillance, testing, contact tracing, and strict quarantine—which could be associated with the early flattening of their incidence curves. Although South Korea has incurred only 0·5 COVID-19 deaths per 100 000 people, the USA, with three times as many intensive care unit beds per 100 000 people and ranked number one in pandemic preparedness before the COVID-19 pandemic, has sustained ten times as many deaths per capita.

This Viewpoint provides a framework for the application of digital technologies in pandemic management and response, highlighting ways in which successful countries have adopted and integrated digital technologies for pandemic planning, surveillance, testing, contact tracing, quarantine, and health care (table). The panel provides a brief glossary explaining some of these concepts.

Screening for infection

With high transmissibility, a case fatality rate greater than 1%, and no effective antiviral therapy or vaccine, the mainstay of pandemic management has been containment and mitigation. However, despite relying on established public health principles, countries across the world have had varying degrees of success in managing the burden of COVID-19. Digital health technology can facilitate pandemic strategy and response in ways that are difficult to achieve manually (figure). Countries such as South Korea have integrated digital technology into government-coordinated containment and mitigation programs, resulting in some of the most successful outcomes. This Viewpoint highlights how digital technologies have been used and associated with the early flattening of their incidence curves. Conversely, South Korea has incurred only 0.5 COVID-19 deaths per 100 000 people. The USA, with three times as many intensive care unit beds per 100 000 people and ranked number one in pandemic preparedness before the COVID-19 pandemic, has sustained ten times as many deaths per capita.

This Viewpoint provides a framework for the application of digital technologies in pandemic management and response, highlighting ways in which successful countries have adopted and integrated digital technologies for pandemic planning, surveillance, testing, contact tracing, quarantine, and health care (table). The glossary provides a brief glossary explaining some of these concepts.

Admin Home Page (Index)

The screenshot shows the Admin Home Page (Index). On the left is a blue sidebar menu with the following items:

- IDISCUSS ADMIN
- Dashboard
- INTERFACE
 - + Add
 - Edit
 - Delete
 - Testimonials
 - Contact Inbox

The main area is titled "Dashboard" and displays four cards with statistics:

- TOTAL USERS: 9
- TOTAL FORUMS: 4
- TOTAL ARTICLES: 4
- TOTAL VISITORS: 218

In the top right corner, there is a user profile for "Preeti Guin" with a small profile picture.

At the bottom center, the text "Copyright © IDiscuss 2021" is visible.

Admin Profile Page

The screenshot displays the Admin Profile Page interface. On the left, a vertical sidebar titled "IDISCUSS ADMIN" contains a "Dashboard" section and a "INTERFACE" section with options: "+ Add", "Edit", "Delete", and "Testimonials". Below these are "Contact Inbox" and a circular back arrow icon. The main content area has a header "Dashboard" and four cards: "TOTAL USERS 10" (with a user icon), "TOTAL FORUMS 4" (with a forum icon), "TOTAL ARTICLES 3" (with a document icon), and "TOTAL VISITORS 241" (with a person icon). In the top right corner, there is a user profile for "Preeti Guin" with icons for "Profile" and "Logout". The bottom right corner shows the copyright notice "Copyright © IDiscuss 2021".

Make changes(Remove Profile Pic)

This screenshot shows the same Admin Profile Page after the profile picture has been removed. The profile picture placeholder is now a simple gray silhouette icon. The rest of the interface, including the sidebar, dashboard cards, user profile, and copyright notice, remains identical to the first screenshot.

Add profile picture

The screenshot shows the 'Edit Profile' section of the IDiscuss Admin interface. On the left, there is a sidebar with a blue background containing navigation items: 'Dashboard', 'INTERFACE', '+ Add', 'Edit', 'Delete', 'Testimonials', and 'Contact Inbox'. The main area has a light gray background and is titled 'Profile'. It features a placeholder user icon and the text 'Preeti Guin preeti@idiscuss.com'. Below this is a 'Remove Profile Picture' button. To the right, the 'Edit Profile' form is displayed with fields for 'Name' (Preeti Guin), 'Email ID' (preeti@idiscuss.com), and 'Profile Pic' (a file input field showing 'Choose File downloadprofilepic.jpg'). A 'Save Profile' button is at the bottom right. In the top right corner of the main area, there is a user profile icon with the name 'Preeti Guin'.

Admin Profile Edited

The screenshot shows the same 'Edit Profile' section after a profile picture has been uploaded. The placeholder user icon has been replaced by a circular profile picture of a woman (Preeti Guin) sitting at a desk. The rest of the interface remains the same, including the sidebar, main profile area, and 'Edit Profile' form. The 'Save Profile' button is visible at the bottom right. The user profile icon in the top right corner now includes a small thumbnail of the uploaded profile picture.

Add new Forum

The screenshot shows the iDiscuss Admin interface. On the left, there's a sidebar with a logo, the text 'IDISCUSS ADMIN', and a navigation menu with options like 'Dashboard', '+ Add', 'Edit', 'Delete', 'Testimonials', and 'Contact Inbox'. The '+ Add' option is expanded, showing 'CUSTOM ITEMS:' with 'Forums' and 'Admin' selected. The main content area has a title 'Add Forum' and fields for 'Forum Name' and 'Forum Description', both currently empty. A blue 'Add' button is at the bottom. Below this is a search bar with placeholder text 'Search Admin by Names...'. At the bottom right of the main area, it says 'Copyright © iDiscuss 2021'.

Fill

This screenshot shows the 'Add Forum' form. The 'Forum Name' field contains the value 'HTML'. The 'Forum Description' field contains a placeholder text: 'The HyperText Markup Language, or HTML is the standard markup language for documents designed to be displayed in a web browser. It can be assisted by technologies such as Cascading Style Sheets|'. A blue 'Add' button is at the bottom.

Forum Added

This screenshot shows the 'Forum Table' section. It displays a table with three columns: 'ID', 'Name', and 'Date'. The table contains six rows of data. The last row is a header row with the same column headers. The data is as follows:

ID	Name	Date
1	Python	2021-08-10 19:33:59
2	Java	2021-08-10 19:34:24
3	PHP	2021-08-10 19:35:06
4	MySQL	2021-08-10 19:37:20
ID	Name	Date

Add New Admin

The screenshot shows the 'Add Admin' page. On the left, there's a sidebar with 'IDISCUSS ADMIN' logo and navigation links: Dashboard, INTERFACE (+ Add, Edit, Delete, Testimonials, Contact Inbox). The main area has a title 'Add Admin' and a search bar 'Search Admin by Names..'. Below it is a table titled 'Admin Table' with columns ID, Name, Email, and Date. It lists two entries: Preeti Guin (ID 1) and Arun Mehera (ID 2). At the bottom right is a blue 'Add Admin' button.

A modal dialog titled 'Add Admin' is open. It contains fields for Name (input: Name), Email address (input: Enter email), Password (input: Password), and Confirm Password (input: Confirm Password). At the bottom are 'Close' and 'Add' buttons. In the background, the 'Admin Table' from the previous screenshot is visible.

Fill

The 'Add Admin' modal now has filled fields: Name (input: Nisha Khan), Email address (input: nisha@idiscuss.com), Password (input: *****), and Confirm Password (input: *****). The 'Add' button is highlighted in blue. The background 'Admin Table' shows three entries: Preeti Guin (ID 1), Arun Mehera (ID 2), and Nisha (ID 3).

New Admin Added

Admin Table			
ID	Name	Email	Date
1	Preeti Guin	preeti@idiscuss.com	2021-09-21 19:54:00
2	Arun Mehera	arun@idiscuss.com	2021-09-21 19:55:49
3	Nisha Khan	nisha@idiscuss.com	2021-09-25 08:00:32
ID	Name	Email	Date

Edit Forum

The screenshot shows the IDiscuss Admin interface. On the left, there's a sidebar with a logo, the text "IDISCUSS ADMIN", and several navigation items: "Dashboard", "+ Add", "Edit", "Delete", "Testimonials", and "Contact Inbox". Under "Edit", there's a "CUSTOM EDIT" section with "Forums" selected. The main content area has a title "Edit Forum" and a search bar "Search Admin by Names..". Below it is a "Forum Table" with columns "ID", "Name", and "Description". The table contains five rows of data about programming languages: Python, Java, PHP, MySQL, and HTML. Each row has "Edit" and "Date" buttons. At the bottom of the table, there's another header row with "ID", "Name", and "Description". The footer of the page says "Copyright © IDiscuss 2021".

Edit option

This screenshot shows the "Edit Forum" modal dialog box overlaid on the main "Edit Forum" page. The modal has a title "Edit Forum" and two input fields: "Forum Name" (containing "HTML") and "Description" (containing a detailed text about HTML). At the bottom of the modal are two buttons: "Cancel" and "Save changes". The background of the main page is dimmed, and the "Edit Forum" title and search bar are visible. The footer of the main page says "Copyright © IDiscuss 2021".

Save

The screenshot shows the IDiscuss Admin interface. On the left, there's a sidebar with options like Dashboard, INTERFACE (+ Add, Edit), CUSTOM EDIT (Forums), Delete, and Testimonials. The main area is titled 'Edit Forum' with a sub-section 'Forum Table'. A modal window titled 'Edit Forum' is open, containing fields for 'Forum Name' (set to 'HTML') and 'Description' (set to 'HyperText Markup Language'). At the bottom of the modal are 'Cancel' and 'Save changes' buttons. In the background, there's a table with four rows, each representing a forum entry with columns for ID, Name, and Description.

ID	Name	Description
1	Python	Python is an interpreted programming language.
2	Java	Java is a high-level programming language.
3	PHP	PHP is a general-purpose scripting language.
4	MySQL	MySQL is an open-source relational database management system. Its name is a combination of "My" and "SQL".

View Changes

This screenshot shows the same setup as the previous one, but the 'Edit Forum' modal is now closed. Instead, a smaller modal titled 'HTML Description' is open, displaying the text 'HyperText Markup Language'. This indicates that the change made in the previous step has been saved. The background shows the 'Edit Forum' screen with the table of forums.

Bitcoin Basics: A Beginner's Guide to Cryptocurrency

Afzal Khan

The world is abuzz about bitcoin these days and that has many people wondering what bitcoin actually is, why it's so hot right now, and what it all means for the future of ecommerce. The following article will hopefully help demystify this ultra-hot cryptocurrency.

What is bitcoin?

Bitcoin is a form of digital currency and a worldwide payment system. Unlike traditional currency, such as minted coins or printed bills, bitcoin is created and held electronically. And unlike traditional currency that is controlled by a central bank, no single entity controls bitcoin and, by extension, no single authority can manipulate the value or destabilize the network. Bitcoin is exchanged electronically by users via cryptographic addresses. Third-party sites, called exchanges, help facilitate these transactions.

Where does bitcoin come from?

The process by which bitcoins are generated is called **mining**. Using powerful computer processors, individual miners or groups working together essentially solve a complex mathematical problem, which not only uncovers new bitcoin, but also serves to maintain the security and integrity of all bitcoin transactions that take place on the network.

Specifically, transaction details resulting from the transfer of bitcoin around the world are collected into a list called a **block**. It's up to miners to confirm those transactions and write them into a general ledger, which is essentially a long list of blocks, known as the **blockchain**. Anyone can access the blockchain to explore any transaction made between any bitcoin addresses, at any point on the network.

Since its inception, Bitcoin has had its ups and downs, but nothing quite like what's happening right now. At the time this article was written, one bitcoin was worth \$25,000 CAD. But before you jump onto the bitcoin bandwagon, consider a few of the pros and cons of investing in bitcoin:

Pros :

- Bitcoin is no longer just for computer geeks and libertarians. A growing number of mainstream investors and entrepreneurs now see bitcoin as a legitimate asset class, similar to stocks, bonds, or commodities.
- A finite supply of bitcoin could continue to drive value. It is thought that nearly 80% of all bitcoins have already been discovered and, as mentioned, no new ones will be available after 2140. In addition, some are predicting demand to increase particularly if central banks decide to start buying them as foreign currency reserves.

Cons :

- Bitcoin's uptake as a mainstream payment system has been slow (except among criminal entities). To date, there is still little evidence that bitcoin will replace cash or credit cards anytime soon. Transactions are relatively slow (10 minutes in some cases) and fees are steadily increasing.
- The bitcoin bubble could burst. Over the last decade, bitcoin has been volatile with some fairly dramatic crashes, notably in 2013 and 2015. Also, experts contend that this latest exponential price increase is unsustainable and once prices drop, many buyers will exit the market.

While it may be unclear precisely what the future has in store for bitcoin, it has, without question, been the driving force behind elevating cryptocurrency to the collective conscience. Whether you prefer to watch the bitcoin action from the sidelines or jump right into the fray, it will be fascinating to see how this journey unfolds.

[Cancel](#)

The screenshot shows the IDiscuss Admin interface. On the left, there's a sidebar with a dark blue background containing navigation items like Dashboard, Add, Edit, Delete, Testimonials, and Contact Inbox. The main area has a light gray background. A modal window titled "Delete Article" is centered, asking "Are you Sure you want to this Article?". It has "Cancel" and "Confirm" buttons. Below the modal is a table titled "Admin Table" with columns for ID, Name, Date, View, and Delete. The table contains four rows of data. At the bottom of the page, there's a copyright notice: "Copyright © IDiscuss 2021".

Testemomial

(Displayed in User's Home Page)

The screenshot shows a web browser window with the URL `localhost/IDiscuss/`. At the top, there are three circular icons with corresponding text below them:

- UI Firendly**: "User Firendly website for user's better experience with proper features".
- Unlimited Forums**: "Unlimited Forums for Users too choose from in different fields".
- Events**: "Organizing events ,workshop, seminar for user skill enhancement".

In the center, there is a section titled **Testimonials** featuring three cards:

- Kirti Saroj** (Python Data Scientist): "I STRONGLY recommend to use IDiscuss platform as users here are active and UI also is greate."
- Afzal Khan** (Computer Programmer): "Idiscuss is a great platform for programmers to learn more and more by sloving problems."
- Bhoomi Nighut** (Software Engineer): "I am a Lorem Ipsum is simply dummy text of the printing and typesetting industry. "Great"

Current Testmonials

The screenshot shows the admin dashboard for "IDISCUSS ADMIN". On the left, there is a sidebar with the following menu items:

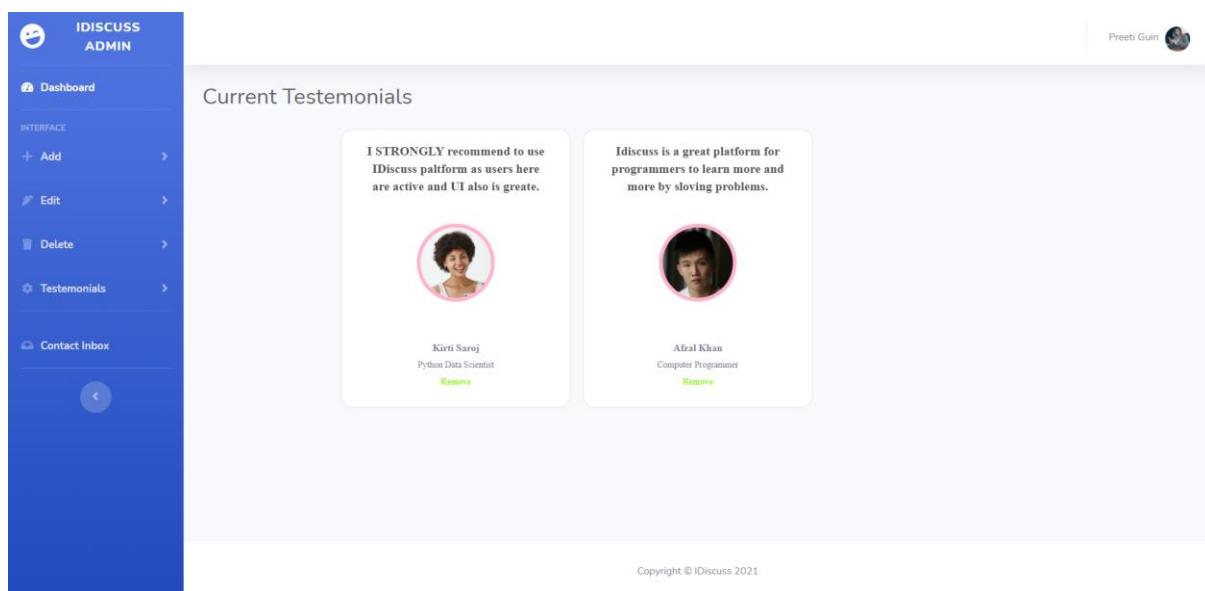

- INTERFACE**
 - + Add
 - Edit
 - Delete
 - Testimonials**
 - CHANGE TESTIMONIAL:
 - Current Testimonials
 - Applied Testimonials
- Contact Inbox

The main content area is titled "Current Testimonials" and displays the same three testimonial cards as the user's home page:

- Kirti Saroj** (Python Data Scientist): "I STRONGLY recommend to use IDiscuss platform as users here are active and UI also is greate."
- Afzal Khan** (Computer Programmer): "Idiscuss is a great platform for programmers to learn more and more by sloving problems."
- Bhoomi Nighut** (Software Engineer): "I am a Lorem Ipsum is simply dummy text of the printing and typesetting industry. "Great"

Each testimonial card includes a "Remove" button at the bottom.

If Removed a review

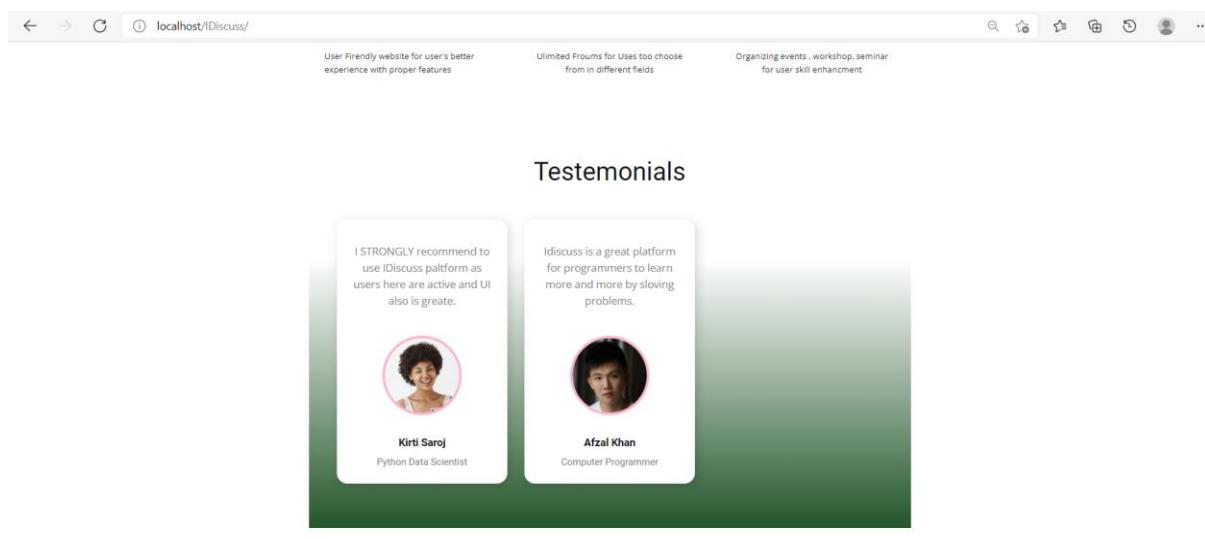

The screenshot shows the 'Testimonials' section of the IDiscuss Admin interface. It displays two testimonial cards:

- Kirti Saroj** (Python Data Scientist): "I STRONGLY recommend to use IDiscuss platform as users here are active and UI also is greate." [Remove](#)
- Afzal Khan** (Computer Programmer): "Idiscuss is a great platform for programmers to learn more and more by sloving problems." [Remove](#)

At the bottom right of the interface, there is a copyright notice: "Copyright © IDiscuss 2021".

Change displayed in user's home page

The screenshot shows the user's home page with the 'Testimonials' section. The same two testimonial cards are displayed:

- Kirti Saroj** (Python Data Scientist): "I STRONGLY recommend to use IDiscuss platform as users here are active and UI also is greate." [Remove](#)
- Afzal Khan** (Computer Programmer): "Idiscuss is a great platform for programmers to learn more and more by sloving problems." [Remove](#)

- If Selected (The Testimonial Review is shifted to current testimonial and removed from applied testimonial)

localhost/iDiscuss/admin/appliedts.php

Shifted to the current testimonial

The screenshot shows the 'Testimonials' section of the IDiscuss Admin interface. It displays three testimonial cards:

- Kirti Saroj** (Python Data Scientist)
I STRONGLY recommend to use IDiscuss platform as users here are active and UI also is greate.
- Priya Vikas Sharma** (Student)
I am impressed by the quality of idiscuss and looking forward to actively response on forums
- Afzal Khan** (Computer Programmer)
Idiscuss is a great platform for programmers to learn more and more by sloving problems.

Trying to Select Testimonial when 3 testimonials are already selected

The screenshot shows a 'Select Testimonials' page with a DataTables example. The table has three rows, all of which are selected (indicated by green 'Select' buttons in the 'Select' column). The first row contains the following data:

ID	Name	Review	View	Select	Delete
4	Bhoomi Nighut	I am a Lorem Ipsum is simply dummy text of the printing and typesetting industry. "Great"	View	Select	Delete
			View	Select	Delete

The screenshot shows a 'Select Testimonials' page with a message: '3 Testimonials Already Selected'. Below this message is a DataTables example table with two rows. Both rows have their 'Select' buttons highlighted in green, indicating they are selected. The first row contains the following data:

ID	Name	Review	View	Select	Delete
4	Bhoomi Nighut	I am a Lorem Ipsum is simply dummy text of the printing and typesetting industry. "Great"	View	Select	Delete
			View	Select	Delete

- **Delete testimonial (This will remove from the database)**

The screenshot shows the iDiscuss Admin interface. On the left, a blue sidebar menu lists 'INTERFACE' options: 'Add', 'Edit', 'Delete', 'Testimonials', and 'Contact Inbox'. The 'Testimonials' option is currently selected, indicated by a white background. The main content area has a header 'Select Testimonials' and a sub-header 'DataTables Example'. Below these are two tables. The first table has columns: ID, Name, Review, View, Select, and Delete. The second table has the same structure but is currently empty. In the top right corner, there is a user profile for 'Preeti Guin' with a small profile picture.

ID	Name	Review	View	Select	Delete

Contact Inbox

The screenshot shows the 'Contact US Inbox' section of the IDiscuss Admin interface. On the left, a sidebar lists 'Dashboard', '+ Add', 'Edit', 'Delete', 'Testimonials', and 'Contact Inbox'. The 'Contact Inbox' item is selected and highlighted in blue. The main area displays a table titled 'Inbox' with one row. The row contains columns for 'ID', 'Name', 'Message', 'View', and 'Delete'. The 'Name' column shows 'Sana Patil', the 'Message' column shows 'sana@gmail.com', and the 'View' and 'Delete' buttons are visible.

localhost/IDiscuss/admin/contactinbox.php

Open

The screenshot shows the 'Inbox' details page for the message from Sana Patil. The sidebar on the left is identical to the previous screenshot. The main area shows the message details: 'From : Sana Patil', 'Sender Mail : sana@gmail.com', and the message content 'This is a dummy contact us meassage.' A 'Back' button is located at the bottom left of the message preview area.

Admin Logout

The screenshot shows the IDiscuss Admin interface. On the left is a sidebar with 'IDISCUSS ADMIN' logo and 'INTERFACE' section containing '+ Add', 'Edit', and 'Delete' buttons. The main area is titled 'Dashboard' and displays four cards: 'TOTAL USERS 10' (with a user icon), 'TOTAL FORUMS 4' (with a forum icon), 'TOTAL ARTICLES 3' (with a document icon), and 'TOTAL VISITORS 241' (with a person icon). In the top right corner, there is a user profile for 'Preeti Guin' with a small photo, and a dropdown menu with 'Profile' and 'Logout' options. A modal dialog box titled 'Ready to Leave?' is centered over the dashboard, asking 'Are you Sure you want to logout?'. It has 'Cancel' and 'Logout' buttons.

(Back to admin login page)

The screenshot shows the 'IDiscuss Admin Login' page. At the top, there is a browser header with back, forward, and search buttons, and the URL 'localhost/IDiscuss/admin/adminlogin.php'. Below the header is the login form with the title 'IDiscuss Admin Login'. It contains two input fields: 'Email address' and 'Password', both with placeholder text. Below the password field is a 'Login' button. At the bottom of the form is a link 'Forgot Password'.
